The Code educates all members of the Georgia Tech Community about the Institute's expectations and Students' rights and creates a standard by which Students are expected to conduct themselves for the purpose of establishing an environment conducive to academic excellence. Georgia Tech Students, Registered Student Organizations, and Groups are responsible for their own behavior, and the Institute has the authority to establish an internal structure for the enforcement of its policies and procedures, the terms of which students have agreed to accept by their enrollment.

1. **Authority**
The Code is not written with the specificity of a criminal statute and should not be confused with criminal law. Institute conduct proceedings are not restricted by the rules of evidence governing criminal and civil proceedings. Students may be charged under multiple sections of the Student Code of Conduct (Non-Academic Misconduct, the Academic Misconduct) based upon the same conduct. Students may be held accountable both to civil or criminal authorities and the procedures outlined in this section will not apply to Academic misconduct relevant to any Institute activity will be addressed regardless of where it may have occurred. Non-academic misconduct will be addressed wherever such acts occur.

2. **Sexual Misconduct** is not governed by this Code, but by the **Sexual Misconduct Policy**, including its procedures and sanctions.

3. **The Office of Student Integrity (OSI)**, in consultation with the University of the General Council, shall develop consistent operating procedures for the administration of the Conduct Process and for the conduct of Student Conduct Panel hearings.

4. Any question of the interpretation or application of the Code shall be referred to the Associate Vice President for Student Life & Dean of Students for final determination.

5. In any instance in which reference is made to an official of the Institute, such reference shall mean the official or the official's designee.

2. Jurisdiction

- a. The Institute shall take necessary and appropriate action to protect the safety and well-being of its community. Accordingly, student conduct should be addressed when such acts occur on Institute property, at Institute-sponsored or affiliated events, or otherwise violate the Institute's student conduct policies, regardless as to where such conduct occurs. If the student has admitted responsibility and has voluntarily decided to participate in the informal process, the procedures outlined in this section will not apply to Academic misconduct relevant to any Institute activity will be addressed regardless of where it may have occurred. Non-academic misconduct will be addressed wherever such acts occur.
- b. The Institute shall retain the ability to adjudicate matters that occurred during a Student's enrollment at Georgia Tech.

3. Inappropriate Classroom Behavior

The primary responsibility for managing the classroom environment rests with the instructor. Students who engage in any acts that result in disruption of a class may be directed by the instructor to leave the class for the remainder of the class period. Longer suspensions from a class can be administered only by the Associate Vice President for Student Life & Dean of Students in accordance with this Code.

4. Registered Student Organization Discipline

Registered Student Organizations are subject to this Code. Any Registered Student Organization accused of committing or attempting to commit one or more acts of misconduct is subject to the conduct procedures outlined in Section F.
